HOMESTEAD HS PTSA LEVELS THE PLAYING FIELD OF COLLEGE ADMISSIONS

Partnership with iAdmissions Offers College Application Counseling

Cupertino, CA..... The Homestead High School Parent-Teacher Student Association (PTSA) welcomes the opportunity to bring affordable college admissions advising to the students at Homestead.

The Homestead PTSA will work with iAdmissions, a Bay-Area service, to help students strengthen their college application essays. The PTSA will receive a fundraising donation for each student that registers for the program.

iAdmissions is a unique network of former college admissions officers that use online technology to provide personalized and affordable guidance on the college admissions process. In addition to hosting a series of free webinars accessible to all, iAdmissions opens doors by offering affordable counseling services to every student, regardless of income level.

“I’m excited to have a partnership with iAdmissions. There is a need for a lower-cost alternative to private coaches and iAdmissions levels the playing field for many students who would otherwise not have access to this type of resource,” said Rita Allen, President of the Homestead High School PTSA.
